

Skin Joy Clinic

SKIN | HAIR | NAIL CLINIC

Hello there! 🍯 ✨

Welcome to the world of "Internal Moisturizing"! Today at SkinJoyClinic, we've placed ultra-pure Hyaluronic Acid exactly where your skin needs it to glow from within. This is bio-remodeling at its finest!

🎮 The "Honey Glow" Protocol 🐝

Your skin is busy distributing that hydration. Here's your role:

- Level 1: The "Lump" Logic 🍯 You might see tiny bumps at the injection sites. These are "honey-like" deposits of hydration. Do NOT massage them! They will naturally spread out over the next 24-48 hours.
- Level 2: The Exercise Embargo 🏃 Skip the gym and heavy lifting for 24 hours. We want the product to settle perfectly without being moved by muscle heat or sweat.
- Level 3: The Alcohol Truce 🍷 Avoid alcohol for 24 hours to minimize any potential bruising or swelling. Your skin prefers water right now!

🏆 Reward: Intensely hydrated, "lit-from-within" skin with improved elasticity!

🧠 Did You Know?

Profhilo isn't a filler—it's a "Skin Booster." It doesn't change your face shape; it just tells your skin to produce more of its own collagen and elastin. It's like a "youth switch" for your cells!

🛑 When to alert the Clinic:

Bruising is possible. However, if you notice the skin turning a strange color (dusky or white) or feel significant pain, call us immediately.
