SKIN | HAIR | NAIL CLINIC

## 🎮 The "Peel & Protect" Mission 🛡️

Your skin is going through a transformation. Here is your survival guide:

- Rule 1: The Sacred "No-Pick" Vow 🚫 When the peeling starts, DO NOT pull the skin. If you pull it before it's ready, you'll cause scarring or dark spots. Let it fall off like a snake shedding its skin!
- Rule 2: The SPF Shield 🧑‍🦲 Your "baby skin" is extremely sensitive to light. Wear SPF 50 daily, even inside. One day of sun can ruin your peel results!
- Rule 3: The Gentle Giant 🍑 Use only the blandest, most boring moisturizer and cleanser we recommended. Now is not the time for "anti-aging" actives!

🏆 Reward: Bright, even-toned skin with a fresh-from-the-spa radiance!

## 🧠 Fun Fact!

Chemical peels go back to ancient Egypt! It's said Cleopatra used to bathe in sour milk (which contains Lactic Acid) to keep her skin smooth and bright. You're following in royal footsteps!

## 🛑 Alert the Team If:

Some redness and tightness are normal. However, if you see "weeping" skin, extreme crusting, or if the skin feels hot for more than 48 hours, give us a call!
