

# Skin Joy Clinic

SKIN | HAIR | NAIL CLINIC

## Hello there!

Your hair follicles just got a specialized "vitamin cocktail" boost! Today at SkinJoyClinic, we've directly delivered the nutrients your hair needs to thrive. Let's make sure those vitamins stay exactly where they belong.

### The "Scalp Sprint" Challenge

Your follicles are currently busy absorbing the good stuff. Help them win the race:

- **Level 1: The Water Wall**  Do not wash your hair for at least 24 hours. We want those nutrients to soak in deep without being rinsed away! (+50 points for patience)
- **Level 2: The Soft Touch**  Avoid scratching or vigorously massaging your scalp today. If it feels a bit tender, that's just the "cocktail" working its magic.
- **Level 3: The Chemical Truce**  No hair dyes, perms, or harsh styling products for the next 7 days. Give your scalp a peaceful environment to rejuvenate.

 **Reward: Stronger, thicker, and much happier hair strands!**

### **Fun Fact!**

Mesotherapy uses "micro-droplets" to bypass the skin barrier. It's like giving your hair roots a direct delivery of a gourmet meal instead of just putting food on the table!

### **When to call Headquarters:**

A little bit of soreness or tiny bumps at the injection sites are normal. However, if you experience intense itching, significant swelling, or a rash, reach out to us!
