Hello there! 🎉 🦸

Goodbye, unwanted guest! You just conquered your **wart** removal treatment at **SkinJoyClinic**. We know it wasn't a spa day, but you handled it like a champ. Now, let's make sure that spot heals beautifully.

🎮 The "Healing Hero" Quest 🩹

Your mission, should you choose to accept it, is to protect the healing zone! Check off these daily quests:

- **Quest 1: The Clean Sweep** 🧼 Gently wash the area with soap and water daily. *No harsh scrubbing!*
- **Quest 2: The Armor Upgrade** 🛡️ Apply your prescribed ointment (if given) and cover it with a fresh, clean bandage. Keep it cozy and protected!
- **Quest 3: The "Hands Off" Protocol** 🚫 No picking, scratching, or peeling the scab! Let your body do its natural magic. *Picking resets your progress to zero!*

🏆 **Reward:** Smooth, clear skin and zero return visits for the same spot!

🧠 Fun Fact!

Did you know warts are caused by a sneaky little virus that essentially tricks your skin cells into growing a tiny "fortress"? Today, we evicted them!
