Hello there! ✂️ ✨

Goodbye, pesky tags! You've just completed your skin tag removal at SkinJoyClinic. Your skin is on its way to being perfectly smooth and tag-free.

🎮 The "Clean Canvas" Challenge 🎨

Your mission is to let the skin settle back into its smooth, natural state:

- Level 1: The "No-Pick" Protocol 🚫 Tiny scabs may form where the tags used to be. Do NOT pick them! Picking causes scars; letting them fall off naturally ensures a smooth finish.
- Level 2: The Gentle Rinse 🧼 You can shower as normal, but don't scrub the treated area. Pat it dry very gently with a clean towel.
- Level 3: The Sun Screen 🛡️ New skin is sensitive skin! Keep the areas covered or apply SPF to prevent any dark spots from forming.

🏆 Reward: A smooth, snag-free surface you'll love!

🧠 Fun Fact!

Skin tags are often just friction-related—places where skin rubs against skin or clothing. Now that they're gone, wearing your favorite jewelry or shirts will be much more comfortable!

🛑 When to call for backup:

If the spots become very red, swollen, or won't stop oozing, give us a quick ring!
